---

## Experience

Code for Korea

### Project An-Sim-I

*Apr 2025 - Present*

National public disaster information app redesign project focused on personalized information architecture. Supported user interview structuring and research synthesis, and developed a low-fidelity wireframe for a personalized disaster kit management feature based on international inclusive case studies.

Dark Matter Labs / Grafik PLF

### Permissioning the City (Demo)

*Oct 2024 - Jan 2025*

Civic event space rental platform exploring participatory governance models. Designed and prototyped a Figma demo UI, applying friction design and structured card systems to support policy transparency and informed user decision-making.

3 Media Art Projects, including Paradise Art Lab Festival: Great Chain of Being

### Digital Animation Production Assistant

*Aug 2020 - Dec 2021*

Media facade digital graphics and animation for installations at Paradise City Hotel Incheon and ACC (National Asia Culture Center). Produced digital background and object painting for 2D animated facade content and handled asset rigging and animation in Adobe After Effects.

Dapsimni Dream Sarangbang Community Child Center

### Art Instructor for Elementary and Special Needs Students

*Jul 2022 - Dec 2022*

Led group art classes for children (6–12) and one-on-one sessions for an adult student with autism, tailoring instruction to individual learning patterns.
